

# Abstract

Disclosed is a compound of formula I:

[wherein B is a nucleobase selected from the group consisting of adenine, guanine, cytosine, uracil and hypoxanthine],  
a compound of formula II:

[wherein B' is a nucleobase selected from the group consisting of adenine, guanine, cytosine, thymine, uracil and hypoxanthine],  
a method for synthesizing these nucleoside triphosphates, and  
a process for producing an oligonucleotide using these  
nucleoside triphosphates.
